

Payment Reform and Health Centers

March 7, 2014

California School Based Health Alliance Conference

Overview

I. CPCA

II. National and State Environment

III. Challenges

IV. Opportunities

CPCA

- CPCA is the trade association clinics in California
- We represent over 1000 community clinics and health centers across California
- The mission of CPCA is to lead and position community clinics, health centers, and networks through advocacy, education and services as key players in the health care delivery system to improve the health status of their communities.

CPCA MEMBERSHIP APPLICATION

MEMBERSHIP APPLICATION PROCESS

- Complete an application for appropriate membership class
 - Include all required supplemental information including sponsorship letter
 - Applications are submitted to the CPCA Board of Directors for approval
-

SPONSORSHIP FOR MEMBERSHIP

The CPCA Bylaws stipulate criteria for membership and procedures for membership application which include sponsorship for applicants in the clinic, consortium or affiliate category.

Sponsorship of applications for membership requires a current "Community Health Clinic" or "Regional Consortia and Association" member in good standing, and with knowledge of the applicant, give a local perspective on the applicant's compliance with the membership criteria as listed in the Bylaw sections attached.

CLINIC LIBRARY

*A Clinical Knowledge Base for Clinicians
Provided by California Primary Care Association
and Western Clinicians Network*

Welcome to the WCN Shared Clinical Knowledge Library

A clinical knowledge base run by clinicians..

Mission: *Primary Care Clinicians collaborating to care for underserved members of our community will have access to highest quality online tools in order to improve the health of their patients and their community.*

By virtue of having access to this portal, you are a clinician or clinic staff member dedicated to the mission of serving the underserved and who is desirous of accessing evidence based clinical protocols and best practice resources. A task force comprised of WCN and Kaiser Permanente physicians, dentists and staff experts have worked with a focus group over the last 18 months to design this interactive portal and select the most relevant resources to be made available to all community health centers clinicians in the western states.

Please use this "wiki-style" site freely and frequently. As you use it please identify additional resources that should be added, resources that could be eliminated and citations that need updating or correcting. You may make these changes by using the "Leave a Reply" form at the bottom of each page. You are also encouraged to start your own discussion group to solicit ideas from your peers on how they are handling critical challenges in their day-to-day clinical operations.
