

## Thriving Schools Integrated Assessment

### Advance health and learning with an integrated approach.

The Thriving Schools Integrated Assessment is an evidence-based tool that helps schools and districts quickly and easily identify opportunities to improve policies and practices that promote student achievement and support the well-being of kids, teachers, and staff.

In connection with the [Healthier Generation Action Center](#), the assessment provides actionable steps and credible resources that center health equity and help to advance improvements in whole child health.

### How does the Thriving Schools Integrated Assessment work?

The assessment is easily accessible, self-paced, and available at no cost. Schools and districts can engage at the level that works for them, whether focusing on a single topic or undertaking a comprehensive assessment.

After creating a free account in the [Healthier Generation Action Center](#), school and district champions can start answering questions and get an instant snapshot of opportunities to improve health within their environment. It's that simple!
